EXAM Preparation

The time is well and truly NOW to start preparing for the upcoming exams. The school wants our students to achieve their goals, to aspire and to leave school feeling in control and excited about their next step. Completing exams with clarity, purpose and dedication is a great way to close out their schooling.

We had Elevate Education come in to give great, simple advice to our Year 12 VCE group about tackling the exams with purpose and direction. We recommend that your family have a look through some of the FREE material promoted below so you are ALL knowledgeable about the best strategies for success:

- Fixing mistakes to ensure constant improvement (using your teachers)
- Time Allocation during exam preparation
- Techniques for managing stress and time pressure in exams

Follow these instructions to unpack the above areas.
1. Go to elevateeducation.com
2. Enter username STUDENT
3. Type in password pacco

You will be able to find great information, get PRACTICE QUESTIONS and TIPS that could take you to the next step. Plus....

- A copy of Elevate's best selling guide, Science of Student Success written by the company's founder, Doug Barton. The book retails in bookstores for $20 but is FREE for Elevate clients. It is available to download in PDF mode under the tab 'Books'

Question forum that allows students to have support even after their Elevate session

For more information on preparing for exams students should come and see David Shields or contact via email at: shields.david.p@edumail.vic.gov.au

PBS for Exam Support

The ACE YOUR EXAM lecture pointed out an extremely important aspect of getting the best outcomes for yourself. USE YOUR TEACHER EFFECTIVELY. PBS is about teaching and promoting positive behaviours and a big part of that is how students can get the most out of their relationships with teachers. The staff at the University Campus want the very best for their kids so using a few of the tips below will be welcomed and supported by our staff.

- Read (or listen) to your feedback – teachers have some ideas on how you can improve so use the information and reflect on it later.
- Don't leave without first understanding. A strong relationship is an honest one. If you don't get it – keep asking until you do. Teachers want to help you understand so don't be embarrassed – show a strong self-esteem and keep asking until you get it.
- Request time from them to go through a certain area of concern. It doesn't work for students or teachers if you ask for ‘general’ help – be specific and have the confidence to ask for extra advice.
- Ask teachers for advice on how you can ‘independently’ learn more about the topic. They are knowledgeable in their field and will know other books/articles, etc that could be a huge help. Use that knowledge to move forward.

Our staff are volunteering to come in over the holidays (a schedule will be posted in the next newsletter) this is another great opportunity to get advice and support to move forward in your studies.

If you'd like any further advice on how to get the most out of your teachers please see David Shields or email at: shields.david.p@edumail.vic.gov.au
